

The Honorable Roger Williams

16 September 2024

House Committee on Small Business  
2361 Rayburn House Office Building  
Washington, DC 20515

Dear Chairman Williams,

On behalf of the Cedar City Chamber of Commerce Board of Directors and our 387 members, I am writing to express our support for the Enhanced Regulatory Flexibility Assessment Act, H.R. 9032. This legislation would make needed changes to the Regulatory Flexibility Act and help protect small businesses from disproportionate regulatory burdens.

As a Chamber in a rural community, we are keenly aware of the challenges small businesses endure as they navigate the many regulations placed on them. Many small businesses struggle to stay afloat, and the additional costs of regulatory compliance can mean the difference between surviving or thriving.

The Enhanced Regulatory Flexibility Assessment Act aims to address these issues by providing a framework that helps to ensure that the impact of regulations doesn't place an undue burden on small businesses. Improving efficiencies in the regulatory process while streamlining the evaluation process will help promote economic growth by removing obstacles that create barriers to economic prosperity.

We strongly encourage the passage of H.R. 9032 as we feel it is a positive step towards creating a regulatory process that is fair, transparent, and will help facilitate economic growth. This bill not only helps the small business community but serves as a means to bolster U.S. economy.

The Cedar City Chamber of Commerce stands in full support of the Enhanced Regulatory Flexibility Assessment Act introduced by Representative Celeste Maloy.

Respectfully,

Christopher McCormick  
President & CEO
